### Think Big

**INTERNATIONAL EXPERT**
The Forum on Education Abroad is recognized as an international expert and is recognized globally as THE standards setting body in education abroad.

### Start Small

- We have named the entities of The Forum that we would like to be more represented. (For example, CCID - Community Colleges for International Development UNCF - United Negro College Fund, ACA - Appalachian Colleges Association, HACU - Hispanic American Colleges and Universities, Department of State - Study Abroad Division)
- The Forum has chosen a world region to establish itself as an expert.

### Scale Fast

- Authoritative standard setting bodies in major regions of the world reference and recognize The Forum as the standard setting body for global educational practice and quality.

### Headline Indicators

- Number and depth of partnerships (breath and depth)
- List of those bodies provided to membership and codified affirmation of Forum’s pre-eminence in standard setting in the United States and around the world.

### Critical Initiatives

- Assess partnerships that would be more productive for depth for long term resonance and impact
- Reach out to relevant organizations
- Explore online digital media publications and partners
- Focus on 1 to 2 regions first
- Pursue registry with additional relevant governmental entities
- Pursue registry with department of education in addition to department of commerce
- Forum will identify beyond the US borders standard setting bodies with whom it would build relationships with a view to becoming recognized as the standard setting organization for that body.
- Increase bandwidth for ability to host conferences, professional development beyond Western Europe
- Identify new opportunities in the Global South
- Develop a saturation campaign around that message.

### WIDELY CITED RESEARCH

We are regularly sought out to collaborate on new research projects and our research is widely cited by educators, the media, and other internal and external audiences.

- Digital catalog of current relevant work curated and shared with membership and study abroad community
- We have identified our target internal and external audiences
- Identify and conduct research projects in collaboration with complementary organizations
- Number of citations of Forum research has increased exponentially across a wide range of quality journals and publications.
- Number of Forum references by major media channels around the world as an authoritative research driven organization.
- Increased readership of Frontiers, based on number of views of the article on the website
- Inclusion of Frontiers in additional indices and databases for scholarly work
- Number of Earned Media Impressions
- Re-affirm work already done in the research area and remind global community.
- Connect current and previous work done by The Forum and share with standard setting organization identified as the focus for standard setting in the first year.
- Identify under-researched areas in the field
