

Welcome to the State of the Field Survey.

The 2022 version of the Institutional Survey has been adjusted in light of recent world events in order to serve two purposes:

- 1) To ask the questions we've been asking for years so that we can compare the current state of the field with what was observed in previously instantiations of this survey.**
- 2) To take a reading on some of the specific impacts of COVID-19 on on the field over the past couple of years.**

We estimate that the survey should take about 30 minutes to complete. If you cannot complete the survey in a single session, you can leave the page and come back to it at a later time. The survey will save the information up through the *last completed page*.

Please remember to use the "PREV" and "NEXT" buttons--not your browser's "back" button--to navigate through the survey.

Member organizations that complete the 2022 State of the Field Survey and enter their email address at the end of this survey will be entered into a drawing for a FREE FORUM CONFERENCE REGISTRATION to be used in 2023.

Note: The questions in this survey refer to activities and policies of the institution or organization you represent; where 'you' or 'your' is used, those terms do not refer personally to the individual completing this survey.

CONFIDENTIALITY: The answers provided in this survey are confidential. Only Forum staff will have access to the individual survey response data. Any publications or presentations prepared by The Forum will include only information about group data or fully anonymized individual comments in such a way that responses will not be identifiable to any individual institution or organization.
